Supplier Quality Survey

Lorch Microwave assumes a basic responsibility for the quality of all contract end items produced under its direction. Since the quality of purchased and sub-contracted supplies contribute substantially to end item quality, it is the policy of Lorch Microwave to purchase only from those suppliers with the capability of maintaining adequate quality controls during all phases of the manufacturing or distribution cycles.

The purpose of this questionnaire is to obtain information relative to our suppliers' quality assurance methods and inspection capabilities. This information will provide a basis for preliminary evaluation of your quality system and facility.

It is requested that this questionnaire be completed by your Quality Assurance Organization and returned to Lorch Microwave. If your organizations Quality System is ISO certified , return the first and second pages with a copy of your ISO Certificate(s) to the address listed. If you do not maintain an ISO9001 certification, complete and return the entire survey. Please note that any loss of certification must be reported to the Supply Chain Manager within 3 business days. In addition, if your company receives any notice of violation of any Environmental, Health or Safety regulation, this information must also be communicated to the Supply Chain Manager within 3 business days.
