Subcontractor Risk Assessment Requirements

In our continued efforts to ensure the safety of our employees and subcontractors, Lorch has implemented a program requiring an Aspect, Hazard and Risk Assessment for all work performed on site at our facility. Prior to commencing work, all subcontractors are required to submit a completed assessment to Mari Williamson, EHS Manager or Dave Carey, Material Director. Subcontractors may use their own form or request a copy of Lorch's form.

No work may begin at our facility until an Assessment is received.

Please complete the requested information below for the individual at your company responsible for submitting assessments.

Subcontractor Name: _____

Assessment Owner: _____

Subcontractor Address: _____

Subcontractor Phone: _____

If you have any questions or concerns, please feel free to contact me at mwilliamson@lorch.com or (410)860-5100 Ext. 146. Please complete this form and return it to me no later than May 2, 2016.

Thank you for your continued support of our Environmental, Health and Safety Program,

Mari B. Williamson
EHS Manager
